

§ 305.1

SOURCE: 64 FR 5358, Feb. 3, 1999, unless otherwise noted.

Subpart A—General

§ 305.1 Purpose and scope.

The purpose of Public Works and Development Facilities grants is to help the Nation's distressed communities revitalize and expand their physical and economic infrastructure and thereby provide support for the creation or retention of jobs for area residents by helping eligible recipients with their efforts to promote the economic development of distressed areas. The primary focus is on the creation of new, or the retention of existing, long-term private sector job opportunities in communities experiencing significant economic distress as evidenced by high unemployment, low income, or a special need arising from actual or threatened severe unemployment or severe changes in local economic conditions. These grants are intended to help communities achieve sustainable economic development by developing and expanding new and existing public works and other infrastructure facilities that will help generate long-term jobs and economic growth, improve economic conditions or otherwise enhance and promote the economic recovery of the area.

§ 305.2 Criteria.

(a) A grant may be made under part 305 for the following purposes:

(1) For the acquisition or development of land and improvements for use for a public works, public service or other type of development facility; or

(2) For the acquisition, design and engineering, construction, rehabilitation, alteration, expansion, or improvement of such a facility, including related machinery and equipment.

(b) A grant may be made under part 305 only when:

(1) The project for which the grant is applied for will, directly or indirectly—

(i) Improve the opportunities, in the area where the project is or will be located, for the successful establishment or expansion of industrial or commercial plants or facilities;

13 CFR Ch. III (1–1–00 Edition)

(ii) Assist in the creation of additional long-term employment opportunities in the area; or

(iii) Primarily benefit the long-term unemployed and members of low-income families;

(2) The project for which the grant is applied for will fulfill a pressing need of the area, or a part of the area, in which the project is or will be located; and

(3) The area for which the project is to be carried out has a strategy and the project is consistent with the strategy.

(c) Maximum assistance for each State. Not more than 15 percent of the annual appropriations available to carry out this part may be expended in any one State.

[64 FR 5358, Feb. 3, 1999, as amended at 64 FR 69875, Dec. 14, 1999]

§ 305.3 Application requirements.

Each application for a grant under part 305 must:

(a) Include evidence of area and applicant eligibility;

(b) Include, or incorporate by reference, a strategy, as provided in § 301.3;

(c) Identify the sources of the other funds, both eligible Federal and non-Federal, that will make up the balance of the proposed project's financing, including any private sources of financing. The application must show that such other funds are committed to the project and will be available as needed. The local share must not be encumbered in any way that would preclude its use consistent with the requirements of the grant; and

(d) Explain how the proposed project meets the criteria of § 305.2.

§ 305.4 Selection and Evaluation.

(a) Projects will be selected in accordance with the application evaluation criteria set forth in § 304.2 of this chapter.

(b) In addition to the evaluation criteria set forth in part 304 of this chapter, project selection and evaluation will be made on the basis of whether, and to what extent, the proposed project will:

(1) Assist in creating new or retaining existing private sector jobs and assist in the creation of additional long-

term employment opportunities rather than merely transferring jobs from one area of the country to another;

(2) Be supported by significant private sector investment;

(3) Leverage or be a catalyst for the effective use of private, local government, State or other Federal funding that is available;

(4) Likely be started and completed in a timely fashion; and

(5) If the project is located in an area with a stable economy and low distress, provide employment opportunities for residents of nearby areas of high distress.

Subpart B—Other Requirements

§ 305.5 Pilot program.

(a) The Chicago Regional Office (CRO) has been authorized to conduct a pilot program through December of 1999 to develop simplified and streamlined procedures for monitoring approved EDA construction projects. Other EDA regional offices have been authorized to conduct their own pilot programs for monitoring compliance with the post-approval project management requirements, provided they first obtain the approval of the Deputy Assistant Secretary for Program Operations. The knowledge and efficiencies gained from the pilot programs will be evaluated and used to improve and revise EDA's post-approval project management requirements and procedures.

(b) As part of this pilot program, the procedures developed by CRO vary from those listed in this subpart B of part 305 in that they place greater reliance on a recipient's certification of compliance. No additional requirements are imposed by CRO procedures. CRO provides guidelines, in its version of the "Requirements for Approved Projects," to all recipients of grants for construction projects monitored by the CRO. The recipient is not required to submit to EDA certain documentation at any set time, but is required to maintain all documentation supporting any and all certifications submitted to CRO, for the period of time provided in 15 CFR part 14 or 24, as appropriate.

[64 FR 69875, Dec. 14, 1999]

§ 305.6 Project management conference.

After the EDA financial assistance award has been accepted by the recipient, EDA may schedule a planning conference with the recipient's representatives to explain the post-approval requirements for administration of the EDA assisted project.

[64 FR 69875, Dec. 14, 1999]

§ 305.7 Selection of the Architect/Engineer.

Guidelines for the selection of the Architect/Engineer (A/E), services to be performed by the A/E, contract provisions for those services and eligible fees for the A/E are as follows:

(a) Selection of the A/E may be by sealed bids using formal advertising or by competitive proposal procedures subject to negotiation of fair and reasonable compensation. The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(b) The A/E agreement shall provide for all services required by the recipient for the engineering feasibility, design and contract administration of the proposed project. Appropriate standards or guides developed by such professional organizations as the American Consulting Engineers Council, American Society of Civil Engineers, National Society of Professional Engineers, and/or the American Institute of Architects may be used where the grantee does not have standard procurement/contract documents.

(c) Exhibit A-1, Checklist for Architect/Engineer Services, in the EDA publication, *Requirements for Approved Construction Projects*, displayed at EDA's Web Site, <http://www.doc.gov/eda> (a copy of this publication is available from EDA and a copy will be furnished to an award recipient with the Offer of Financial Assistance), lists the contract provisions which EDA recommends for the A/E contract. The A/E agreement must be furnished to EDA in order for the allowability of the costs of A/E services to be determined.

(d) Eligible project costs may include, but not be limited to, costs for
